50 pieces Cretones, assorted colors, good width, fast colors, 12 1/2 inch values..... **10c**

50 pieces Cretones, good width, excellent assortment. Values up to 17c; Friday..... **12c**

### Other Sales To-Day

Friday is Remnant Day. Many of the items are too small to advertise. Watch the counters; you will see the bargains.

China, Glassware and Silverware in the Basement. A visit to the Autumn Home-furnishing Sale must include these departments.

### The Fountain Restaurant

The most popular places in the city for shoppers. Meet your friends at the fountain, where delicious drinks and dainty frozen bits are dispensed. A shopping tour is a pleasure when you take Luncheon here in the Restaurant.

### Other Sales To-Day

Sale of Men's Shirts will attract many shoppers. Every one an exceptional value at the sale price, 25c.

Basement Bargains offer shoppers many opportunities to save on Bedding, Dress Gingham, Calicoes, White Flannel, etc.

## CITY WATER FOR BARTON HEIGHTS

Council Committee Hears Petition and Grants It, Case Being Extremely Urgent.

### TOWN TO HAVE ITS OWN PLANT

Mayor Miller Explains Why Town Called Upon Richmond for Help.

In view of the urgent situation in Barton Heights, where a water famine is threatened, the Council Committee on Water yesterday afternoon responded to the petition of Dr. Roshan W. Miller, Mayor of the town, and recommended that a connection with the city main at the foot of North Second Street be allowed at the usual rates charged to non-resident water-takers, the meter to be placed at the city line, and the township of Barton Heights to be charged 25 cents per 1,000 gallons used. Some doubt existed as to whether such a connection with the city water system was within the power of the Water Committee, so the action was taken subject to the opinion of the City Attorney, the committee granting the connection if it is within its power, otherwise recommending that the connection be allowed by the Council.

No Adequate Supply Now.

The petition from Barton Heights set forth that the town was temporarily without an adequate supply of water, and that the prolonged dry season had depleted the wells, both from a surface spring and well, from which the town has been pumping.

Dr. Miller explained that the town was now making extensive improvements in its water works and had erected a large new reinforced concrete tank, which, although now about complete, would not be ready for use until the concrete has set, which will probably take from thirty to sixty days. The town, he said, was also boring a new artesian well, which is expected to give an ample supply of pure, clear water for all purposes. Although the artesian wells on the Ginter property struck veins of water at from 200 to 400 feet, the Barton Heights well has already gone down 750 feet without striking but, comparatively slight flow. The boring will be continued until a flow of at least 100 gallons a minute is realized.

Meanwhile the town faces, according to Mayor Miller, both an increase in insurance rates and a possible sickness from a shortage of water, and asked the city for the privilege of connecting with the city main at the foot of North Second Street, and for a maximum of 40,000 gallons of water daily for a period of three months, by which time it is believed the new Barton Heights system will be in full operation.

Superintendent Davis, of the Water Department, said that as a rule he was not favorable to the petition to connect with the city main, especially until the new pumping system is in operation, but that in this instance, the demand being only for ninety days, and the situation being urgent, he was disposed to recommend that the petition be granted.

The city could connect, he said, with a main now reaching to the corporate limits, near the Seaboard Air Line crossing of Second Street, making it necessary to lay only about 800 feet to connect with the Barton Heights main, and the far end of the First Street, and Richmond water, he said, would naturally rise all over Barton Heights, while the high level there would prevent any drawing away from the upper floors of houses in Richmond, or any decrease in the pressure along the line of the main he proposed to tap.

From the inquiries of Mr. Davis to the township would only use Richmond water to supplement the supply from its well, now nearly dry, and probably would not use over 20,000 gallons a day, the demand being mainly in order to keep its tanks full and provide a sufficient supply to prevent fire in order to protect property and satisfy the insurance companies.

To Test Legal Right.

Mr. Cutchins, of the committee, advocated the request, on the ground that it was to the interest of Richmond to build up its suburbs, and to prevent the loss of people, many of whom are employed in Richmond, and are really a part of the city, and who will some day certainly be annexed.

Chairman Mills raised the question of the authority of the committee to make the connection, and the petition was granted subject to the ruling of the City Attorney, who will take up the question to-day from a legal standpoint.

Dr. Miller said last night that the question was mainly one of sufficient reserve to satisfy the insurance companies, pending the completion of the water system, and that it in no way affected any future negotiations for the annexation of Barton Heights to Richmond; that an annexation of territory on the north side of the city is coming in the near future, many public men admit. Among the members of the City Council present yesterday afternoon, the subject of the petition was discussed, and the ruling of the City Attorney, who will take up the question to-day from a legal standpoint, was discussed.

Dr. Miller said last night that the question was mainly one of sufficient reserve to satisfy the insurance companies, pending the completion of the water system, and that it in no way affected any future negotiations for the annexation of Barton Heights to Richmond; that an annexation of territory on the north side of the city is coming in the near future, many public men admit. Among the members of the City Council present yesterday afternoon, the subject of the petition was discussed, and the ruling of the City Attorney, who will take up the question to-day from a legal standpoint, was discussed.

At the Virginia Hospital.

Mrs. James R. Williams, of Trevilians, Louisa county, who entered the Virginia Hospital several days ago, is well enough to see her friends.

Mrs. Dr. William C. Schroeder, of Louisa county, who was under treatment several days ago at the Virginia Hospital, has entirely recovered, and returned to her home at Bumpass.

## TO HANDLE TRAINS BY 'PHONE LINES

Virginia Railroads Preparing to Install New Service by End of Year.

### COAST LINE TO START WORK

Southern, Seaboard, C. & O. and R. F. & P. Said to Have Decided on Change.

If the plans of Virginia railways prevail, within three months, or certainly before January 1, the telephone will have replaced the telegraph. In large measure, for the purpose of dispatching trains in this State. Beginning Monday, the Atlantic Coast Line will start the construction of poles and the stringing of wires preliminary to opening a circuit between this city and Rocky Mount, N. C.

An official of the railway company is in Richmond now, and he states that his purpose is to start the work. The Western Union Telegraph Company will furnish men to assist in the construction, and it is understood that the scheme to facilitate the movement of trains has been greatly assisted by that corporation. The idea is to secure a more expeditious method of warning agents of the time of arrival of trains.

The general public will not benefit by the installation of the new service, except from the fact that the giving of orders by telephone greatly decreases the chances of accidents. The enterprise is a new one to Virginia, although it has been tried successfully on Western roads, and has been adopted by the New York Central and Pennsylvania systems.

Local officials think that the establishment of the telephone service will revolutionize the handling of trains in the South, and will mean that railroads in this State are keeping pace in the matter of modern improvements, with the systems which control the bulk of the traffic of the country.

On Washington Line, Too.

It is understood, and the fact is corroborated, that the Richmond, Fredericksburg and Potomac Railway is contemplating the installation of a telephone system between this city and Washington, and it is also said that the Chesapeake and Ohio will soon establish telephone service between Russell, Ky., and Cincinnati. Work will be begun soon in opening the two latter routes.

It is stated that the Seaboard Air Line will probably establish a telephone route between Raleigh and Munroe, N. C., and that the Southern Railway is contemplating the installation of a telephone system between Lynchburg and Greensboro. It is especially stated that the use of telephones has already been shown to be a success, and its adoption in Virginia is considered a matter of time. The enterprise displayed by railways in this State.

Gold Watch Presented.

Professor Jacob Reinhardt, for forty years organist at Beth Abrahah Temple, was presented by the congregation with a handsome gold watch and chain yesterday morning following the Rosh Hashanah services. The presentation was made by Rabbi E. N. Calish in a suitable address.

Reward for Fine Work.

Chief Joyner, of the Fire Department, received yesterday a check for \$25 from A. B. Anthony & Son, in token of their appreciation of the department's services in the recent fire at the Commercial Hotel. The money is to be devoted to the work of the Firemen's Relief Association.

Mr. Keeney at Convention.

George H. Keeney, assistant cashier of the Merchants National Bank, is attending the Chicago National Bankers' Association convention in Chicago as a representative of that bank.

Hampton to Be Tried To-Day.

T. E. Hampton, charged with killing Charles Cooke, in Henrico county, last Friday, will be tried this morning at 10 o'clock. A thorough investigation of the case has been made, and it seems that Hampton will be able to substantiate his statement that the deed was committed in self-defense.

Returned from New York.

Joseph W. Stewart, son of Collector Joseph B. Stewart, of the port of Richmond, returned yesterday from a two weeks' vacation trip to New York.

## OUTLOOK PLEASES CHAIRMAN SLEMP

Republican Leader Gratified at Reception Accorded His Party's Speakers.

### NORTHERN SPEAKERS COMING

Secretary Nagel, Ex-Secretary Shaw and Others to Participate in Campaign.

"I have never before heard of the political managers of a candidate for Governor being afraid that their nominee would not know the right thing to say," said Congressman C. B. Slemp, of Big Stone Gap, at the Richmond Hotel last night. "Judge Mann had been advertised to speak in Bristol Saturday night. In that city a local option contest is pending, in which the judge will not render a decision before next week. It looks as though Judge Mann's managers feared that, not knowing what this decision will be, he might make a mistake and jump on the wrong side."

According to Mr. Slemp, who is the Republican State chairman, his party's campaign is progressing satisfactorily. Encouraging reports, he said, are being received from all sections of the State, the meetings are well attended, and the speakers are given respectful hearings.

Mr. Slemp's Argument.

From a national standpoint, the Congressman contended, it would be a good thing for the State of Virginia to endorse national Republican policies, with the probable result of the investment here of millions of dollars of Northern capital, while a general house-cleaning in State affairs is badly needed.

The courteous criticism of the efforts of Republican speakers on the part of the Richmond newspapers is much appreciated by his party, asserted Mr. Slemp. "Wholesome criticism of our position by the press, and wholehearted criticism of the Democratic position by Republican newspapers, is a good thing for the State," he continued, "and I trust that the pleasant attitude at present existing between the parties and the press will continue."

Noted Speakers Booked.

Answering an inquiry as to speakers from other States who will participate in the Virginia campaign, Mr. Slemp said that Congressman Duncan B. McKinley, of California, will probably speak in Richmond about October 20. Mr. McKinley will spend about ten days in Virginia, making a speech a day. Assistant Attorney-General Wade H. Ellis will make about six speeches, while three addresses will be made by former Secretary of the Treasury Leslie M. Shaw.

Secretary of Commerce and Labor Nagel, unless he finds later that he is unable to do so, will make one or two speeches for Captain Kent and his committee. Congressman Gaines, of West Virginia, and Congressman Fasset, of New York, are also expected to be among the speakers.

Captain Kent will speak in Petersburg to-night and Captain Brent at Culpeper Monday.

"The Republicans believe that the time has come," concluded Mr. Slemp, "when an appeal can safely be made to the intelligent and conservative voters of the State."

"They believe that the day of petty politics is over, and that we have entered an era of statesmanship. The people of Virginia are becoming vitally interested in their State government, and the management of public affairs, and will resent any method of campaigning that is not dignified, honest and, above all, on a high plane of intelligence. We shall not appeal either to ignorance or prejudice. We are quite willing to put our case in the hands of the man who wants facts, who knows how to weigh them. That will be our position and the position of our candidates."

"We ask for no quarter in this respect. We invite fair and honest criticism as to our purposes, our methods, and our declarations. We know our candidates to be able, honest and experienced men, and we have a platform that has not yet been successfully assailed."

## WOULD NOT ACCEPT TODD RESIGNATION

Committee Defers Action Upon It Until Fairmount Investigation Is Concluded.

Unwilling to impede or harass in any way the investigation of the street grading in Fairmount, in which errors and defects are alleged to exist, the Council Committee on Streets last night postponed action on the resignation of Assistant City Engineer Charles L. Todd until the next meeting.

Owing to the fact that he desires to devote his time and attention to the estate of his father and other private matters, Mr. Todd tendered his resignation some days ago to City Engineer Bolling, who was unwilling to take action upon it until his assistant had completed everything which demanded his attention. Mr. Todd has completed all his duties except that of appearing to testify finally before the committee investigating the alleged errors in the street work in Fairmount, and the committee last night ordered that Mr. Todd continue in his duties until the investigation is concluded, desiring that he shall testify in his official capacity. Mr. Todd took leave of his office yesterday, but will now have to resume his work until later.

The Assistant City Engineer was in charge of the work in Fairmount, and has admitted that errors exist in it, and he will be required to give evidence in regard to the allegations of mistakes and defects brought to the attention of the committee by Mr. Richards some time ago.

The committee considered the matter of allowing Swift & Co. to build a sidewalk in front of its plant, but owing to the fact that the proposed sidewalk would be somewhat elevated and might result in accidents which would involve the city in damage to the plant, the matter was referred to the City Attorney for his opinion and suggestions.

The application of the Seaboard Air Line to be allowed to raise its grade on Marshall Street between Fifteenth and Seventeenth Streets was favorably acted upon.

Mr. Ferguson asked for an estimate on an oil boulevard from Broad Street to Byrd Park.

### BURNING MORE GAS

Little Decrease in Revenue from Ten Per Cent Reduction.

Contrary to the belief expressed last year when the price of gas was lowered by the city from 31 to 26 cents 1,000 feet, there is little decrease in the revenues of the city from the Gas Department, an estimate prepared by Superintendent Knowles showing that up to this time the receipts are only \$12,600 behind those of last year, notwithstanding the cut in price of 16 per cent, which it was predicted would reduce the city's revenue fully \$14,000 a year. With the three heaviest gas-burning months yet to come it is probable that the annual figure will be reduced to an even smaller figure before the close of the year.

Increase in the use of gas for cooking purposes is the reason given by the officials of the department for the comparative increase in the amount sold at the lower price.

### TWENTY-SEVEN CANDIDATES

Many Applicants for Clerkship of Second Market.

Twenty-seven candidates are in the field up to this time for the clerkship of the Second Market, made vacant by the resignation of J. F. Flournoy. It is expected by the joint assessor called for next Thursday night that every one of the fifty-six members of the two branches of the Council will have his own pet candidate.

A request has been forwarded to President Peters of the Common Council, to call a special meeting of that body for Thursday night at 7:30 o'clock, preceding the joint meeting in order to confer in ordering certain sewers which have already passed the Board of Aldermen.

Every unmarried physician can learn an important lesson from "The Climax."

## ENROLMENT WILL PASS 15,000 MARK

Public School Attendance Slightly Above Last Year, With More to Report Yet.

The total enrolment of the district schools in Richmond up to the close of yesterday's session was 12,499, as compared with 12,464 on the corresponding day last year, a gain of only 35. Many of the principals reported, however, that they had been unable to accommodate beginners—the 1A pupils—and these had been turned away pending arrangements for the accommodation of extra classes. With these included, and the High School still to hear from, with a probable enrolment of 1,000, and the late comers, the enrolment for the year will certainly go above 15,000, while the expectation of the school authorities is that the High School enrolment will greatly exceed that in previous years.

How They Are Divided.

The enrolment up to yesterday, as reported by the various principals to Assistant Superintendent A. H. Hill, was as follows: First grade, 7,567; corresponding day last year, 7,507; colored pupils, this year, 4,555; last year, 4,757; kindergarten, this year, 381; last year, 299. The figures seem to show an increase in the primary and kindergarten grades, and a number of the principals report an over-crowding of the accommodations for beginners.

Superintendent Chandler and Mr. Hill, with Supervisor Walford and the principals of the various schools, were hard at work yesterday arranging transfers from building to building. Next week provision will be made for renting additional rooms where needed, so that all pupils of school age may be accommodated.

With the army of men at work in every part of the building, there now seems no reason why the High School cannot be opened as scheduled on Monday morning.

### COAL HELD UP

No More Deliveries at City Hall Until Quality Is Tested.

The engineer in charge at the City Hall yesterday afternoon reported to Inspector Beck that the coal being delivered to the building was of inferior quality, so much so that it was with the greatest difficulty that steam could be kept in the boilers for the running of the elevators, the engineer declaring that he was burning a great deal more coal than was usually necessary, and frequently having to clear his grates of clinker and refuse.

Inspector Beck directed that no more coal be received on the present account until tests can be made by some competent person to ascertain whether it is of standard. The present contract for supplying the City Hall is held by the Richmond Coal Company, which is owned by John M. King is manager.

### PEDDLING ORDINANCE

Committee Will Consider Measure Providing Heavy License Tax.

The Committee on Ordinance, Charter and Reform will meet to-night to consider a number of measures referred by the Council. Among other things, an ordinance is being introduced which would require a license of \$50 for peddling in the streets from other than country carts selling their own produce. The ordinance, which is intended practically to prohibit other peddling, is endorsed by the Retail Merchants Association, which has felt the pressure of the peddling merchant who, without rent to pay and paying no taxes, undercuts the market.

Provision will also be made in the ordinance prohibiting peddlers to ring from doorbells or to create a nuisance crying their wares in the streets.

### Elected Vice-President

Secretary W. L. T. Rogerson was elected second vice-president of the Life Insurance Company of Virginia by the board of directors of the company yesterday. The office has been vacant since the death of James W. Pegram.

## TABERNER ON CAPTAIN BRENT

Superintendent Eggleston Shows Danger of Comparison Anent School Teachers.

"An unfair comparison is always dangerous," said Superintendent of Public Instruction J. D. Eggleston, Jr., when he read yesterday the report of the speech in this city Wednesday night of Captain Frank P. Brent. Mr. Eggleston referred to the statement made by Mr. Brent to the effect that "the average salary paid Virginia teachers is \$243 a year, while Mr. Eggleston's janitor, from Smith's Precinct," earns that amount in four months."

"This comparison was singularly infelicitous," continued Mr. Eggleston, "coming from a man who had occupied a prominent position in the Department of Public Instruction. By the same token one might say that the average salary paid Virginia teachers at one time during Mr. Brent's term of office was less than \$180 a year, while his janitor, a negro from Jackson Ward, earned that amount in less than four months. Besides, the employee referred to as receiving too high a salary, in addition to serving as messenger to the department, performs a great deal of clerical work, is a white man, and the head of a family. He receives \$32.34 a month."

### SUSPECT PELLAGRA

Fourth Case of Malady Comes to Attention of Health Board.

A fourth case of what is supposed to be pellagra was reported to the Board of Health yesterday, and is under the supervision of the Medical Inspector, who has not yet fully diagnosed it. The case is that of a young woman living in the West End. While it is possibly to some extent infectious, it is not classified as such by the health board, which physicians are required to report to the Board of Health. In order to study the disease, which has given some alarm through the South, however, all doctors have been requested to report suspected cases in order that they may be kept under surveillance until more is known of the malady.

### HENRICO SCHOOL OPENINGS

Meeting of Principals at Courthouse Next Saturday.

Schools in Varina District, Henrico county, will be opened for the session October 4, and teachers are required to report to Superintendent Jenkins at the courthouse, October 2. In Highland Park the schools will be opened September 27, the teachers' meeting to be held in the school building on the Saturday preceding. The new school house near Westhampton, in Tuckahoe District, is expected to be ready for occupancy in the early part of November.

A meeting of principals will be held at the courthouse next Saturday to discuss a proposed crossing of the high schools and to arrange plans for the coming session. There will be about fifteen teachers present.

### Battle of Cold Harbor

At the meeting of R. E. Lee Camp, Confederate Veterans, to-night, Daniel S. McCarthy will deliver an address on the battle of Cold Harbor, after which Mrs. Norman V. Randolph will present a cross of honor to veterans entitled to them. The public is invited to attend the lecture, for which no admission is required.

### Skin-Grafting Operation

A. J. Bondurant, a farmer, of Buckingham county, is rapidly recovering from an operation recently performed at the Memorial Hospital. He was brought here several days ago by his son, A. J. Bondurant, Jr. The operation involved skin-grafting which, though delicate, has resulted satisfactorily, and Mr. Bondurant will soon be able to return home.

### Suit Instituted

Suit was instituted in the City Circuit Court yesterday by the Atlantic Surety Company of New York, against the city of Richmond for \$500. No declaration has been filed.

## JUDGE MANN TO ANSWER KENT

Democratic Nominee Will Give Party's Attitude in Speech at Culpeper on Monday.

Judge William H. Mann's campaign for the governorship of Virginia against the Republican nominee will be formally opened in a speech at Culpeper next Monday. Judge Mann made some informal remarks to an audience of his neighbors in Natotoway two weeks ago, but the speech which he is preparing to make at Culpeper is to be regarded as the declaration of his platform and his policies.

It is stated that the attacks of Captain William P. Kent, made in his recent address, upon the record of the Virginia Democracy, will be fully answered by Judge Mann, whose long experience in State affairs has made him familiar with the subject. It is further understood that the Democratic nominee will have some things to say about the opposite party that will give Captain Kent something to think about for a time besides attacking the Democrats.

The announcement of the Culpeper speech was made yesterday by Secretary Brennan, of the State Democratic Committee.

### IN POLICE COURT

Usual Assortment Given the Usual Penalty for Cause.

Edward Skanks, charged with hitting Robert L. Walker with a brick, was sent to the grand jury from the Police Court yesterday morning.

Willie Dawkins, for being disorderly and interfering with an officer in the discharge of his duty, was fined \$25 and required to give security in the sum of \$100 for thirty days.

Cases against P. Raymond Jones, charged with breaking into the house of William Coleman, Samuel Carter, with giving poison to Della Carter, and James Scott, with stealing \$58 from James Cunningham, were all dismissed.

Thomas Davis, colored, heat Mrs. Davis his wife, and was fined \$20, giving \$100 security for ninety days.

### Going Back to Newport News

David Residlaris, alias D. R. Stinson, a white man, had his case continued in the Police Court yesterday morning. He was charged with being a fugitive from justice from Newport News. Late yesterday afternoon a telegram was received by Chief of Police Werner from the authorities of Newport News saying that the officer would arrive here this morning to take him in charge.

### Mr. Tragle Returns

T. Elwood Tragle, who has been absent from the city for nearly twelve months, returned Tuesday morning to his home at Piedmont. Mr. Tragle was recently removed, suffering from a complication of diseases. Mr. Tragle has been under the constant care of specialists since he left Richmond, and returns only slightly improved.

### Payment on New Plume

The Council Committee on Water yesterday afternoon authorized payment to the Piedmont Construction Company of \$12,500 on account of the new settling basin flume, on which Superintendent Davis reported rapid progress was being made. The committee also opened bids and awarded contracts for a large amount of castings, valves and supplies for the department.

### At the Virginia Hospital

Mrs. James R. Williams, of Trevilians, Louisa county, who entered the Virginia Hospital several days ago, is well enough to see her friends.

Mrs. Dr. William C. Schroeder, of Louisa county, who was under treatment several days ago at the Virginia Hospital, has entirely recovered, and returned to her home at Bumpass.
